

1. Amendment to the Specification

a. Please replace the single paragraph in the section entitled Abstract with the following amended paragraph:

~~The present invention is a~~ A lock-down device for use on an all-terrain vehicle, comprised of a rectangular base which mounts to a surface such as a garage floor or bed of a pick-up truck, four sockets mounted at each corner of the base, a flat rear panel with two bolts pivotally articulating on its bottom edge, a wheel cover, a flat rear panel which pivotally articulates with the wheel cover and which has two bolts on the bottom edge of the rear panel. The bolts on the rear panel and the front panel register with the four sockets on the base. The rear panel engages with the wheel cover by a latching mechanism.

b. Please replace paragraph [017] in the section entitled Detailed Description of the Invention, with the following amended paragraph:

[017] Fig. 4 is an isometric view of the details of the base, wheel cover and front plate, showing an alternative embodiment for the ~~bets~~ bolts and sockets.

2. Amendment to the Drawings

The attached drawing sheet includes changes to Fig. 2. This sheet, which includes Fig. 2, replaces the original sheet 2/4 including Fig. 2. In Fig. 2, previously omitted reference numeral 6 has been added.

Attachment: Replacement Sheet
